## 3-Megapixel Day/Night PoE Dome Network Camera - IR LEDs

The LevelOne FCS-3052 is a 3-Megapixel dome network camera with video resolution of up to 2032x1536. The camera supports H.264/MPEG-4/MJPEG video compressions, making it an efficient and cost-effective means of surveillance for your business.

Together with 12 Infrared LEDs and removable IR-cut filter, the FCS-3052 is perfect for delivering low-noise images in total darkness, at a distance of up to 10 meters. No need to install this camera near a power source, power and data are received through a single Ethernet cable using Power over Ethernet (PoE) technology. It is also equipped with one digital input/output (1DI/1DO) for alarm and sensor.

In addition, we offer you a free Dynamic Level1DNS™ service, which is very useful if you don't have a fixed public IP address, and provides you with an easy-to-remember domain address. The FCS-3052 is indisputably the best choice for 24 hours indoor surveillance of areas such as offices, banks, and retail stores.
