

24 LED Cluster Single & Index Dual Contact Automotive

15mm Bayonet Based Lamps

Series AUT1157, AUT1156

Patent Pending

Features

- Maintenance Free, Easy Installation
- Solid-State, High Shock / Vibration Resistant
- Built-in Current Limiting Resistors
- Long Life 100,000+ hours (10 years)

- Low Power Consumption, High Intensity
- Major Power Savings
- Major Reduction in Heat Generation
- Three-Year Lamp Warranty

Options

- Other Voltages Available
- Other Bases Available
- Other Colors Available

Applications

- Auto/Aircraft
- Auto Signal
- Recreation Vehicles
- Trucks

For aftermarket use. May not comply with SAE or U.S. DOT standards.

Note:

LED brake/tail lamps may not work with some older thermal flasher units. An LED brake/tail lamp will require an electronic flasher/blinker unit which is commonly available at your local auto parts store.

Brake/Turn/Tail
for 12/14 Volt Applications

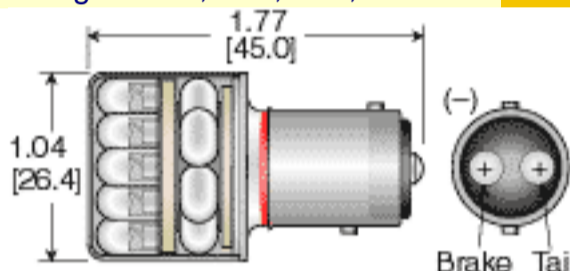

AUT1157-0ER-014V
Other Voltages: 24V, 28V, 36V, 48V

RED

Turn/Running Light
for 12/14 Volt Applications

AUT1157-0UY-014V
Other Voltages: 24V, 28V, 36V, 48V

YELLOW

Replacement for: Incandescent 1157, 2057, & European P21/5W bulbs
Base Size: 15mm
Base Type: Index Dual- Contact (DC) Bayonet
Output Colors:
 Super Red 633nm
 Super Yellow 595nm
Operating Voltage: 12-14VDC
Forward Current (max): 160mA
Total Light Output:
 Red
 (End Lumens/End Footcandles): 100
 Yellow
 (End Lumens/End Footcandles): 72
Number of LEDs: 24

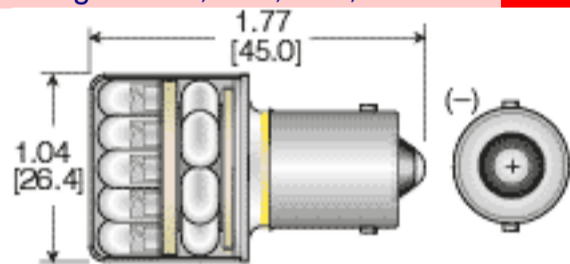

Turn Signal
for 12/14 Volt Applications

AUT1156-0UY-014V
Other Voltages: 24V, 28V, 36V, 48V
Brake

YELLOW

AUT1156-0ER-014V
Other Voltages: 24V, 28V, 36V, 48V

RED

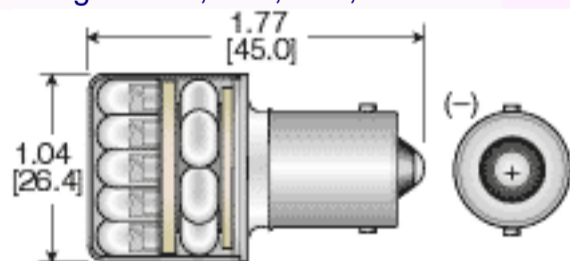

Replacement for: Incandescent 1156
Base Size: 15mm
Base Type: Single Contact (SC) Bayonet
Output Colors:
 Super Yellow 595nm
 Super Red 633nm
Operating Voltage: 12-14VDC
Forward Current (max): 160mA
Total Light Output:
 (Yellow)
 (End Lumens/End Footcandles): 72
 (Red)
 (End Lumens / End Footcandles): 100
Number of LEDs: 24

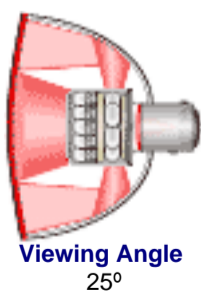

Back-Up
for 12/14 Volt Applications

AUT1156-0CW-014V
Other Voltages: 24V, 28V, 36V, 48V

WHITE

Replacement for: Incandescent # 1156
Base Size: 15mm
Base Type: Single Contact (SC) Bayonet
Output Color:
 Cool White 8000K
Operating Voltage: 12-14VDC
Forward Current (max): 120mA
Total Light Output:
 (End Lumens/End Footcandles): 124
Number of LEDs: 24

Special Notes

- 1) For best results, LED lamp output color should be same as Lens/ Filter color above the lamp.
- 2) LED Lamps shown are for most standard applications.
- 3) Some applications may require custom or modified configuration of the LED Lamp.
- 4) LED Lamps shown are for direct DC or AC voltage supply. External resistor, relays or special circuits may require special LED Lamps.
