

3~8mm Vari-Focal Lens

CAS-1200

H/W Version: 2

CAS-1200, a CS-mount vari-focal lens, is a great accessory for any system installer using several box-type cameras. CAS-1200 has an F-1.4 auto-iris that adjusts automatically to bring flexible light control to box-type cameras, rendering the highest-quality images available. This is useful for deployments

using the same cameras installed in several different lighting environments like garages, warehouse loading docks, street monitor, and etc. In addition, IR lens avoids shifts of focus points in both visible and infrared ranges, ensuring clear vision in day and night surveillance.

- 1. 4-pin Auto-iris Connector
- 2. Monitor Distance Adjustment
- 3. Focal Length Adjustment

Works Well With

FCS-1070
Day/Night Network Camera

WCS-1090
11b/g Wireless Day/Night IP Network Camera

FCS-1081A
PoE Network Camera with Audio

WCS-2070
11g Wireless Day/Night Network Camera

FCS-1091
Day/Night PoE IP Network Camera

Technical Specification

Sensing Area
